

**Name:** Aeonium arborescens  
'Purple arboretum'  
**Height:** 1-3 feet  
**Width:** 1 foot  
**Flowers:** inflorescence bright yellow  
**Exposure:** Sun to Light Shade  
**Soil:** well-drained soil  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium arboretum var arbprei,  
**Height:** up to 4 feet  
**Width:** 2-4 feet, rosettes up to 16 inch diameter  
**Exposure:** Sun to partial shade  
**Soil:** well-drained soil  
**Flowers:** inflorescence bright yellow, early spring  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium arboretum  
'Variegated' 'Sunburst'  
**Height:** 18 – 24 inches  
**Width:** 2 feet  
**Flowers:** inflorescence bright yellow  
**Exposure:** Sun to partial shade  
**Soil:** well-drained soil  
**Flowers:** inflorescence pale yellow, early spring  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium arboretum 'Zwartkop'  
Syn: Aeonium atropurpureum (Swartskoph)  
**Height:** 3-4 feet  
**Width:** 1-2 feet  
**Flowers:** inflorescence yellow in summer  
**Exposure:** Cool Sun/Light Shade  
**Soil:** well-drained soil  
**Irrigation:** Low Water  
**Winter hardiness:** to 25-30 deg F  
**Propagation:** stem cuttings  
Deer Tolerant, origin Canary Islands

**Name:** Aeonium haworthii 'Pinwheel'

**Height:** 1 – 2 feet

**Width:** 1-2 feet

**Exposure:** Sun to partial shade

**Soil:** well-drained soil

**Flowers:** inflorescence pale yellow, early spring

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

Tightly branching small shrub.

**Name:** Aeonium canariense, fuzzy hybrid

**Height:** 2-3 feet

**Width:** 3-3 feet

**Exposure:** Full sun to partial shade

**Soil:** well-drained soil

**Flowers:** inflorescence pale green

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

Tightly branching with white hairs.

**Name:** Aeonium canariense hybrid

'Blushing Aeonium'

**Height:** 2-3 feet

**Width:** 3-3 feet

**Exposure:** Full sun to partial shade

**Soil:** well-drained soil

**Flowers:** inflorescence yellow summer

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

Tightly branching with rose purple edges.

**Name:** Aeonium decorum variegates 'Kiwi'

**Height:** 1.9 feet

**Width:** 1-2 feet

**Flowers:** inflorescence cream

**Exposure:** Cool Sun/Light Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

Small branching variegated shrub with pointed ovate leaves in a star-shape

**Name:** Aeonium goochiae 'Ballerina'  
**Height:** 12 inches  
**Width:** 1-2 feet  
**Flowers:** clusters of yellow flowers Blooms April & May  
**Exposure:** Full sun  
**Soil:** well-drained soil  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium simsii  
**Height:** 6 inches  
**Width:** 1-2 feet  
**Flowers:** clusters of yellow flowers Blooms April & May  
**Exposure:** Full sun  
**Soil:** well-drained soil  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium 'Lily Pad'  
**Height:** under 6 inches  
**Width:** 6-12 inches  
**Exposure:** Light shade  
**Soil:** well-drained soil  
**Flowers:** inflorescence bright yellow, early spring  
**Irrigation (H2O Info):** Low Water  
**Propagation:** stem cuttings  
Sticky leaves

**Name:** Aeonium purple scrolls or  
Aeonium simsii x Zwartkop  
**Height:** 6 -12 inches  
**Width:** 12-18 inches  
**Flowers:** inflorescence pink, April & May  
**Exposure:** Full sun to Partial Shade  
**Soil:** well-drained soil  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** stem cuttings

**Name:** Aeonium sedifolium

**Height:** 3-4 inches

**Width:** 3-6 inches

**Flowers:** clusters of yellow flowers Blooms April & May

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

A great subject for a small succulent bonsai or fairy gardens. Sticky leaves.

**Name:** Aeonium undulatum

'Pseudotabulaeforme' 'Saucer Plant'

**Height:** 2-3 feet

**Width:** 1-2 feet

**Flowers:** inflorescence cream

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

8-12" rosettes atop a thick stem with few branches, bears bright glossy green

**Name:** Aeonium 'Suncup'

**Height:** 6 -12 inches

**Width:** 6-8 inches

**Flowers:** inflorescence white, summer

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** stem cuttings

Develops pink leaf margins when grown in the sun.

**Name:** Agave attenuata

'lion's tail', 'foxtail', 'Spineless Agave'

**Height:** 4-5 feet

**Width:** 6-8 feet

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division or stem cuttings

**Name:** Agave americana  
 'Century Plant'  
**Height:** 1-6 feet  
**Width:** 1-5 feet  
**Exposure:** Sun or Shade  
**Irrigation (H2O Info):** Low Water  
**Propagation Methods:** By dividing rhizomes, tubers, corms or bulbs (including offsets)  
**Winter Hardiness:** 25 deg F  
**Propagation:** division of pups

**Name:** Albuca bracteata  
 Syn: Ornithogalum longibracteatum, 'Pregnant onion'  
**Height:** 9-48 inches  
**Width:** 6 -18 inches clump  
**Flowers:** white in late spring  
**Exposure:** Sun or Part Shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25 deg F  
**Propagation:** seed or form offsets freely  
 The Pregnant Onion is a very easy plant to grow. Usually kept as a houseplant and is toxic to humans and/or animals.

**Name:** Agave americana variegated  
 'Yellow Ribbons'  
**Height:** 1-6 feet  
**Width:** 1-5 feet  
**Exposure:** Sun or Shade  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25 deg F  
**Propagation:** division of pups

**Name:** Albuca sp 'Augrabies Hill'  
**Height:** 5-7 inches  
**Width:** 3-5 inches clump  
**Flowers:** white & yellow in late spring  
**Exposure:** Sun or Part Shade  
**Soil:** well-drained soil  
**Irrigation:** Low Water  
**Winter hardiness:** to 25 deg F  
**Propagation:** division of pups  
 Individual plants. Small growing winter growers.

**Name:** Aloe aristata (Lace Aloe, a dwarf aloe)

**Height:** 3-5 inches

**Width:** 4-12 inches

**Flowers:** orange red

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25 deg F

**Propagation:** division of pups

This small-growing Aloe is often mistaken for a Gasteria or Haworthia. The maturing leaves terminate in long awn-like extensions, giving a halo effect

**Name:** Aloe 'Blue Elf' Cluster

**Height:** 18 inches

**Width:** 1-2 feet

**Flowers:** orange inflorescence on tall stalk

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 20 deg F

**Propagation:** division of pups

**Name:** Aloe 'Black Gem'

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** orange red

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25 deg F

**Propagation:** division of pups

**Name:** Aloe brevifolia 'Crocodile Plant'

**Height:** 6-12 inches

**Width:** 8-12 inches

**Flowers:** orange red

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25 deg F

**Propagation:** division of pups

**Name:** Aloe cameronii 'Red Aloe'

**Height:** 1-2 feet

**Width:** 2-4 feet

**Flowers:** orange inflorescence on tall stalk

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25 deg F

**Propagation:** division of pups

the end of summer, it's decked out in festive red. Stays compact

**Name:** Aloe ciliaris 'Climbing Aloe'

**Height:** 1-2 feet

**Width:** 2-4 feet

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups or stem cuttings

**Name:** Aloe 'Christmas Carol'

**Height:** <1 foot

**Width:** <1 foot

**Flowers:** red in fall/winter

**Exposure:** Full sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups

This beautiful Kelly Griffin hybrid shows mostly green during the grey skies of winter, but now, at

**Name:** Aloe dorotheae 'Sunset Aloe'

**Height:** 1 foot

**Width:** 1-2 feet

**Flowers:** greenish - yellow

**Exposure:** Full sun (color much better in sun)

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups

Plant turns yellow/red in sun. This is a small, shrubby, rosettes-forming succulent

**Name:** Aloe 'Fairy Pink', Fairy Pink  
Sunbird Aloe  
**Height:** 8-12 inches  
**Width:** 8-12 inches  
**Flowers:** White blushing pink in summer  
**Exposure:** Full Sun – Partial Shade  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 31 deg F  
**Propagation:** division of pups

**Name:** Aloe krapohiliana (krap-oh-lee-AY-nuh)  
**Height:** under 6 -12 inches  
**Width:** 9-12 inches  
**Flowers:** Red-Orange in summer  
**Exposure:** Sun – Partial Shade  
**Irrigation:** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** division of pups

**Name:** Aloe juvenna, 'Tiger Tooth Aloe'  
**Height:** 1 foot  
**Width:** 2-3 feet  
**Flowers:** orange red  
**Exposure:** sun or shade  
**Soil:** well-drained soil  
**Irrigation:** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** division of pups

**Name:** Aloe maculate, also Aloe saponaria,  
'Soap Aloe' or 'Zebra Aloe'  
**Height:** 1-2 feet  
**Width:** 1-2 feet  
**Flowers:** red-orange inflorescence on tall stalk  
**Exposure:** Full Sun  
**Irrigation:** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** division of pups  
They can sucker freely.

**Name:** Aloe nobilis 'Gold-Tooth Aloe'

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** orange red, summer

**Exposure:** Sun or Shade

**Irrigation:** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups

**Name:** Aloe pictifolia 'Speckled Aloe'

**Height:** 6-12 inches

**Width:** 9-12 inches

**Flowers:** Rose/Mauve, late winter/early spring

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 30-32 deg F

**Propagation:** division of pups

**Name:** Aloe 'Topaz' (Topaz Grass Aloe)

**Height:** 1-2 feet

**Width:** 2-3 feet

**Flowers:** orange & pink

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups

**Name:** Aloe striata

**Height:** 1 foot

**Width:** 2-3 feet

**Flowers:** orange red

**Exposure:** sun or shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** division of pups

**Name:** Aloe vera  
**Height:** 1 foot  
**Width:** 1 feet  
**Flowers:** orange red  
**Exposure:** Partial Shade  
**Soil:** well-drained soil  
**Irrigation (H2O Info):** Low Water  
**Winter Hardiness:** 25-30 deg F  
**Propagation:** division of pups  
 Good for treating burns.

**Name:** Aloe 'White Stag'  
**Height:** 3-6 inches  
**Width:** 12 inches forms clumps  
**Flowers:** orange  
**Exposure:** part shade  
**Irrigation (H2O Info):** Low Water  
**Propagation:** forms off sets  
 A very nice cultivar with a white base tone and green dots on a textured leaf.

**Name:** Aloe 'Walmsley's Blue'  
**Height:** 6 inches  
**Width:** 6-9 inches forms clumps  
**Flowers:** orange  
**Exposure:** part shade  
**Irrigation (H2O Info):** Low Water  
**Propagation:** forms off sets

**Name:** Anacampseros rufescens  
**Height:** 3 inches  
**Width:** 3- 6 inches  
**Flowers:** pink  
**Exposure:** full sun or part shade  
**Soil:** well-drained soil, dormant in winter  
**Drought Tolerant:** Yes  
**Irrigation (H2O Info):** Low Water  
 Hardy to 34 deg F

**Name:** Bulbine frutescens 'Hallmark'  
"Snake Flower"

**Height:** up to 18 inches

**Width:** 2-3 feet wide clumps

**Flowers:** orange/yellow star-like with frilly yellow stamens, summer-winter

**Exposure:** Sun/part shade

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 20 deg F

**Propagation:** divisions

**Name:** Cistanthe grandiflora 'Jazz Time, Rock Purslane' (old name Calandrinia grandiflora)

**Height:** 1 feet

**Width:** 2 feet

**Flowers:** purple

**Exposure:** Sun or shade

**Irrigation (H2O Info)::** low water

**Winter Hardiness:** deg F

**Name:** Cotyledon orbiculata, 'pig's ear, 'round-leaved navel-wort'

**Height:** 2-4 feet

**Width:** 2-3 feet

**Flowers:** bell-shaped on tall stalk, orange-red

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

**Name:** Cotyledon orbiculata var. flanagani

**Height:** 2-3 feet

**Width:** 2-3 feet

**Flowers:** bell-shaped on tall stalk, coral/apricot

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Name:** Cotyledon Tomentosa (Kitten paws)

**Height:** 6-12 inches

**Width:** to 12 inches

**Flowers:** bell-shaped on tall stalk, brown/bronze, mid Fall

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula arborescens undulatifolia 'Blue Bird'

(Wave Leaf Jade)

**Height:** 2-3 feet

**Width:** 2-3 feet

**Flowers:** white star shaped, winter flowers

**Exposure:** Sun/part sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 20-25 deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula arborescens 'Silver Dollar Jade'

**Height:** 2-4 feet

**Width:** 2 feet

**Flowers:** pink-white star shaped, winter

**Exposure:** Sun/part sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

Large and impressive, single stemmed many branched shrub.

**Name:** Crassula argentea "Crosby Dwarf"

**Height:** 12 -18 inches

**Width:** 2-3 feet

**Flowers:** white star shaped, winter flowers

**Exposure:** Part Sun/part sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

Butterfly Attracting, Deer Resistant, Heat Tolerant, Drought Tolerant. Makes nice house plant.

**Name:** Crassula atropurpurea va.

**Anamala**

**Height:** 3-6 inches

**Width:** 1 foot

**Flowers:** white star shaped

**Exposure:** Part Sun/part sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula capitella 'Campfire'

**Height:** 6 inches

**Width:** 2 -3 feet

**Flowers:** small white

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula brevifolia

**Height:** 6  
inches

**Width:** 12 inches

**Flowers:** small white

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

Slowly sprawling succulent

**Name:** Crassula capitella ssp. Thyrsiflora 'Red  
Pagoda'

**Height:** 7 inches

**Width:** 18 inches

**Flowers:** small white

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula congesta

**Height:** 3-12 inches

**Width:** 6-12 inches

**Flowers:** pale green to white, late spring/early summer

**Exposure:** Sun or Partial Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

'late spring color changes as temps get into the high 90's

**Name:** Crassula dubia

**Height:** up to 18 inches

**Width:** 12 inches

**Flowers:**

**Exposure:** Full sun to light shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Hardy:** deg F

**Propagation:** leaf or stem cuttings

A lovely silvery succulent with rounded spoon-shaped leaves covered in a fine white powder. Develops a pink edge when grown in the sun.

**Name:** Crassula ericoides

**Height:** 5-12 inches

**Width:** 2-3 feet

**Flowers:**

**Exposure:** Full sun

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Hardy:** deg F

**Propagation:** leaf or stem cuttings

Prone to root rot, easy to root from leaf or stem cuttings

**Name:** Crassula falcata 'Airplane Plant'

**Height:** 2-3 feet

**Width:** 2-3 feet

**Flowers:** bright red show stopper flowers

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Hardy:** at least 20 deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula 'Green Pagoda'

**Height:** 2-3 feet

**Width:** 2-3 feet

**Flowers:** bright red show stopper flowers

**Exposure:** Full sun to Partial Shade

**Soil:** well-drained soil

**Irrigation (H2O Info):** Low Water

**Hardy:** at least 20 deg F

**Propagation:** leaf or stem cuttings

**Name:** Crassula multicava 'Fairy Crassula'

**Height:** 1 foot

**Width:** spreading

**Flowers:** white, in winter

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula marginalis rubra var, '

**Height:** 3-6 inches

**Width:** 12 inches wide and trailing

**Flowers:** small white flowers tinged with pink

**Exposure:** Sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

This succulent plant forms a cascading mass of fleshy red, green and lemon variegated leaves.

**Name:** Crassula muscosa var. obtusifolia, 'Rattail Crassula, Watch Chain, Lizard's Tail, Zipper Plant'

**Height:** 6 -8 inches

**Width:** 12 inch clumps

**Flowers:** very small yellow-green flowers

**Exposure:** Sun to part shade

**Drought Tolerant:** Yes

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula Platyphylla  
"Burgundy"

**Height:** 6-12 inches

**Width:** 12- 18 inch clump

**Flowers:** inflorescence cluster white

**Exposure:** Full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

Crassula platyphylla 'Burgundy' forms small shrubby plants with chubby, rounded finger-like leaves with burgundy margins and tips.

**Name:** Crassula nudicaulis 'Baby  
Necklace'

**Height:** 6- 12 inches

**Width:** 6-12 inches

**Flowers:**

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

Quite rare readily takes on red accents from direct sunlight.

**Name:** Crassula ovata 'Gollum Jade'

**Height:** 1-3 feet

**Width:** 1-2 feet

**Flowers:** pink-white star shaped

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula ovata "Jade, Friendship Plant"

**Height:** 2-6 feet

**Width:** 2-3 feet

**Flowers:** small white or pink star-like flowers

**Exposure:** full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula ovata 'Variegata'

**Height:** 2-4 feet

**Width:** 2-3 feet

**Flowers:** small white or pink star-like flowers

**Exposure:** full sun to part shade

**Irrigation (H2O Info):** Low Water

**Exposure:** full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula platyphylla "Variegata"

**Height:** 2-6 inches

**Width:** 12- 18 inch clump

**Flowers:** inflorescence cluster white

**Exposure:** Full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula perforata 'String of Buttons' 'Neckless Vine'

**Height:** 1-3 feet

**Width:** 1-2 feet

**Flowers:** pale yellow

**Exposure:** Cool Sun or Light Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula pruinosa

**Height:** 3-6 inches

**Width:** 8-12 inch

**Flowers:** white bell shaped, spring -summer

**Exposure:** Full sun

**Irrigation (H2O Info):** Low Water

**Hardiness:** 30 F

**Propagation:** leaf or stem cuttings

Well drained soil

**Name:** Crassula pubescens ssp. radicans

**Height:** 2-6 inches

**Width:** 12- 18 inch clump

**Flowers:** Spherical clusters of white flowers on tall stems in winter

**Exposure:** Full sun

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

Spectacular ground cover with small green leaves turning flame red in winter when grown in full sun

**Name:** Crassula rupestris ssp. commutata 'Tom Thumb'

**Height:** 3-5 inches

**Width:** 3-9 inch

**Flowers:** small pink cluster

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula rupestris sbsp. Marnieriana (Baby's necklace)

**Height:** 1-3 feet

**Width:** 1-2 feet

**Flowers:** pale yellow

**Exposure:** Cool Sun or Light Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Crassula 'Spring Time'

**Height:** 2-6 inches

**Width:** 12- 18 inch clump

**Flowers:** inflorescence cluster pink

**Exposure:** Full sun

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

A low growing clumping species with deep green triangular leaves. Large rounded heads of pink flowers in winter

**Name:** Crassula tetragona, 'Miniature Pine Tree'

**Height:** 2 feet

**Width:** 2 feet

**Flowers:** terminal inflorescence, white

**Exposure:** Full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

**Name:** Cyanotis kewensis

**Height:** 6-12 inches

**Width:** 12- 18 inches

**Flowers:** Magenta, Late spring/ early summer

**Exposure:** light shade

**Irrigation (H2O Info):** Average water needs, do not overwater.

**Winter hardiness:** to 25 -30 deg F

**Propagation:** Forms offsets freely.

Groundcover. A nice weed of sorts, it makes a ton of flowers in the fall before dying. The stumps come to life in the spring.

**Name:** Crassula volkensis

Syn: Crassula galunkensis

**Height:** 2-6 inches

**Width:** 12- 15 inch clump

**Flowers:** tiny white flowers

**Exposure:** Full sun to part shade

**Irrigation (H2O Info):** Low Water

**Propagation:** stem cuttings

Will grow into a small vine-like low growing shrub.

Intricate details on the leaves and tiny white flowers

**Name:** Echeveria agavoides 'Lipstick'

**Height:** 4-6 inches

**Width:** 12-15 inches

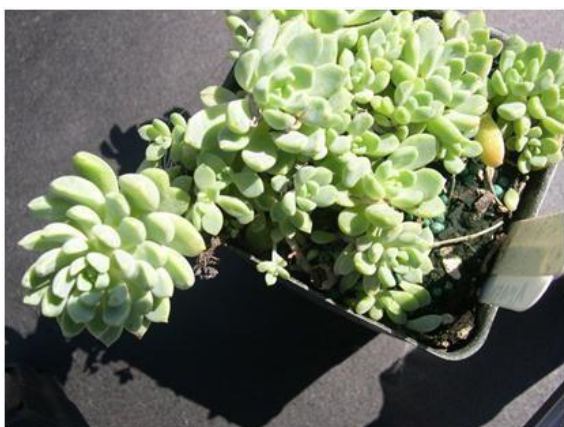

**Flowers:** coral in spring

**Exposure:** full sun to part sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 -30 deg F

**Propagation:** Forms offsets freely to form large solid clumps 4 to 6 inches tall.

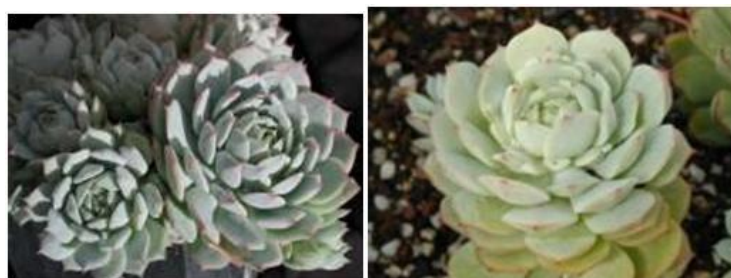

**Name:** Echeveria amoena hybrid  
**Height:** 3-6 inches  
**Width:** 6- 18 inches  
**Flowers:** coral in spring  
**Exposure:** full sun to part sun  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25 -30 deg F  
**Propagation:** Forms offsets freely to form large solid clumps

**Name:** Echeveria hybrid 'Black Prince'  
**Height:** 4-6 inches  
**Width:** 6-10 inches  
**Flowers:** deep salmon to red very intense  
**Exposure:** full sun to part sun  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25 -30 deg F  
**Propagation:** leaf or stem cuttings

**Name:** Echeveria 'Blue Sky'  
**Height:** 6-12 inches  
**Width:** 12-15 inches  
**Flowers:** coral in spring  
**Exposure:** full sun to part sun  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25 -30 deg F  
**Propagation:** Forms offsets freely to form large solid clumps 6 to 8 inches tall.

**Name:** Echeveria derenbergii  
**Height:** 3-4 inches  
**Width:** 2-3 inches  
**Flowers:** yellow inside and orange outside, in summer  
**Exposure:** full sun to part sun  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 25 -30 deg F  
**Propagation:** Forms offsets freely to form with many small rosettes

**Name:** Echeveria 'Doris Taylor'

**Height:** < 6 inches

**Width:** 6-9 inches

**Flowers:** Orange, Late spring/early summer

**Exposure:** Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** Propagate by offsets and leaf cuttings.

The leaves are velvet/fuzzy textured

**Name:** Echeveria fimbriata 'Fireball'

**Height:** 1-2 feet, solitary 8 inches

**Width:** 1-2 feet

**Flowers:** Red in Spring

**Exposure:** Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Echeveria derenbergii

**Height:** < 6 inches

**Width:** 6-9 inches

**Flowers:** yellow & Orange, summer

**Exposure:** Sun or Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** Propagate by offsets and leaf cuttings. Great in wet and dry positions

**Name:** Echeveria leucotricha (Chenille Plant)

**Exposure:** Light shade to full sun

**Growth Habits:** Semi-Shrub, rosettes of densely hairy leaves, 6 inches in diameter, leaves up to 4 inches long, leaf tips are generally brown haired

**Watering Needs:** Plenty of water in spring and summer, little or none in winter. Needs good drainage

Vermilion and yellow flowers, 0.8 inch long, on a 12 inches long inflorescence

**Propagation:** leaf or stem cuttings

**Name:** Echeveria imbricate

**Height:** < 1 foot

**Width:** 4-8 inches

**Flowers:** Red & Yellow, in Spring

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** form offsets freely to form large solid clumps 4 to 6 inches tall.  
(Hens and Chicks) tight rosettes of flat grey-green leaves.

**Name:** Echeveria 'Mahogany'

**Height:** 4 -6 inches

**Width:** 3-6 inches

**Flowers:**

**Exposure:** full sun to part shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings  
HAS THICK, WIDE, DEEP RED LEAVES, WITH BRIGHT RED MARGINS FROM IDEAL SUNLIGHT. VERY RARE AND DIFFICULT TO FIND.

**Name:** Echeveria hybrid dondo

**Height:** < 1 foot

**Width:** < 1 foot

**Flowers:** bright orange bell shaped

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** Forms offsets freely to form 4 to 6 inches tall.

**Name:** Echeveria 'Mauna Loa'

**Height:** 4 -6 inches

**Width:** 4-6 inches

**Flowers:** red

**Exposure:** full sun to part shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Water carefully so that water does not go into the center of the rosette, can cause rot.

**Name:** Echeveria multicaulis

**Height:** 6 -12 inches

**Width:** 12-15 inches

**Flowers:** Bell-shaped flowers are reddish with some yellowish tint inside.

**Exposure:** Sun to part shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Attractive to bees, butterflies and birds, fire-retardant & resistant to deer. It is native to Guerrero, Mexico, forms small rosettes atop shrubby stems of firm glossy green leaves that become coppery in winter cold or in strong light

**Name:** Echeveria pulidonis

**Height:** 4 -5 inches

**Width:** 4-6 inches

**Flowers:** bright yellow

**Exposure:** sun to shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25-30deg F

**Propagation:** leaf or stem cuttings, occasional offsets

**Name:** Echeveria 'Perle Von Nuerberg'

**Height:** 4 -6 inches

**Width:** 4-8 inches

**Flowers:** coral in spring

**Exposure:** full sun to part sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

They are drought tolerant and hardy to about 25-30 degrees.

Forms offsets freely.

**Name:** Echeveria 'Pulv-oliver' (Red Echeveria)

**Height:** > 1 foot

**Width:** > 1 foot

**Flowers:** Red & Yellow

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

The hairy, light green leaves with red tips cluster at the ends of the branches

**Name:** Echeveria pulvinata 'Frosty'

**Height:** 6-12 inches

**Width:** 6-24 inches

**Flowers:** yellow and orange bell shaped, late winter to spring

**Exposure:** full sun to part sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 deg F

**Name:** Echeveria 'Set-Oliver',  
Echeveria setosa x harmsii, "Sea Urchin"

**Height:** < 6 inches

**Width:** < 6 inches

**Flowers:**

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** Branching, stemmed plant with tight rosettes of lime-green leaves with red tips and undersides.

**Name:** Echeveria 'Fred Ives' syn Graptoveria 'Fred Ives'

**Height:** 8 inches

**Width:** < 1 foot

**Flowers:** 1'-2' long branched inflorescences bearing red-orange

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Large clumps of rosettes to 8 inches tall by nearly 1 foot wide

**Name:** Echeveria 'Fred Ives'  
Graptoveria Fred Ives crested

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** 1'-2' long inflorescences bearing red-orange

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

CRESTEDS ARE A VARIANCE PRODUCED BY NATURE GROWS WIDER TO ACCOMODATE THE SPECIALIZED LEAF GROWTH ACROSS THE CROWN.

**Name:** Euphorbia Tirucalli, 'Sticks on Fire, Red Pencil Tree'

**Height:** 4-8 feet

**Width:** 3-5 feet

**Flowers:** insignificant

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** stem cuttings

**Name:** Euphorbia caput-medusae, (Medusa's Head)

**Height:** 6" to 3'

**Width:** to 3 feet

**Flowers:** insignificant

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 23 deg F

**Propagation:** stem cuttings

Has central tap rooted caudex to inches wide from which emerge numerous snake like gray green branches.

**Name:** Euphorbia flanaganii cristate form

**Height:** 2-4 inches

**Width:** 3-10 inches

**Flowers:** insignificant

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 23 deg. F

**Propagation:** stem cuttings

The cristate form, which forms deep emerald green fan-shaped stems that resemble "green coral". Cristate forms generally occur when injury occurs to the plant at a young age.

**Name:** Euphorbia mauritanica

**Height:** 2-5 feet

**Width:** 2-5 feet

**Flowers:** insignificant

**Exposure:** full sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** stem cuttings

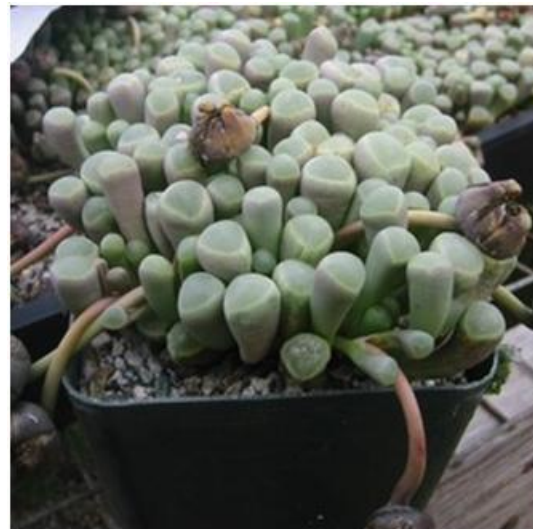

**Name:** Euphorbia monstrose  
**Height:** 2-5 inches  
**Width:** clumping to 1 foot  
**Flowers:** yellow  
**Exposure:** Full sun to part shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:** divisions, stem cuttings

**Name:** Faucaria tigrina  
 'Tiger Jaws'  
**Height:** < 1 foot  
**Width:** clumping to 1 foot  
**Flowers:** yellow  
**Exposure:** Full sun to part shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:** divisions. FAUCARIA BRITTENIAE IS A RESULT OF AN ECHEVERIA AND GRAPTOPETALUM HYBIRDIZATION.

**Name:** FAUCARIA BRITTENIAE  
**Height:** < 1 foot  
**Width:** slumping to 1 foot  
**Flowers:** yellow  
**Exposure:** Full sun to part shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:**  
 FAUCARIA BRITTENIAE IS A RESULT OF AN ECHEVERIA AND GRAPTOPETALUM HYBIRDIZATION.

**Name:** Femesteroa 'Baby Toes'  
**Height:** 1- 2 inches  
**Width:** clumping to 6 inches  
**Flowers:** yellow late summer  
**Exposure:** Full sun  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:** divisions. Only the upper leaf parts protrude from the ground, window pane plant

**Name:** Gasteria acinacifolia

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** orange

**Exposure:** Light Shade/Part Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** divisions

**Name:** Gasteria 'Little Warty'

**Height:** 2- 6 inches

**Width:** 3- 8 inches

**Flowers:** tubular cream with green stripes.

**Exposure:** shade to partial shade

**Irrigation (H2O Info):** Average

**Soil:** Porous soil with adequate drainage.

**Winter hardiness:** to 32 deg F

**Propagation:** division or leaf cuttings

Water thoroughly when soil is dry. Many of the plants have darker leaves or leaves with darker striation.

**Name:** Gasteria armstrongii (Cow Tongue)

**Height:** 1-3 inches

**Width:** 3-8 inches

**Flowers:** red, Inflorescence solitary raceme

**Exposure:** Light Shade/Part Sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** to -1°C (Or less)

**Propagation:** seed, division, or leaf cuttings.

Good indoor plant. G. armstrongii is best watered throughout the year, but sparingly in winter.

**Name:** Gasteria bicolor 'Lawyer's Tongue'

Syn: Gasteria caespitosa, Gasteria planifolia

**Height:** 5- 20 inches

**Width:** 1-2 feet

**Flowers:** orange

**Exposure:** Light Shade/Part Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** divisions

**Name:** Gasteria pilansii (Ox tongue)  
**Height:** < 1 foot  
**Width:** < 1 foot  
**Flowers:** orange  
**Exposure:** Sun or Shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:** leaf cuttings or division.  
 THE ROSE/PINK COLORATION. WILL REPRODUCE ITSELF BY CLUMPING.

**Name:** Gasteraloe 'Green Ice'  
**Height:** 2- 4 inches  
**Width:** 3- 6 inches  
**Flowers:** tubular cream with green stripes.  
**Exposure:** filtered sun to partial shade  
**Irrigation (H2O Info):** Average  
**Soil:** Porous soil with adequate drainage.  
**Winter hardiness:** to 32 deg F  
**Propagation:**  
 Hybrid between Gasteria and Aloe. Water thoroughly when soil is dry. Many of the plants have darker leaves or leaves with darker striation. Gasteraloe need shade, but can take full sun for only part of the day. Great indoor plant for windowsills, patios, or even in a rock garden.

**Name:** Gasteria liliputana  
**Height:** 2- 4 inches  
**Width:** 3- 6 inches  
**Flowers:** Red, Spring -Summer  
**Exposure:** Sun to partial Shade  
**Irrigation (H2O Info):** Average  
**Hardiness:** 30 F  
 Suitable for growing indoors. Rare dwarf succulent – not so rare any more got it at Green Thumb.

**Name:** Gasteraloe 'Green Gold Lemon-Lime'  
**Height:** 3-6 inches  
**Width:** 6-9 inches  
**Flowers:** 1'-2' long branched inflorescences bearing red-orange  
**Exposure:** Sun or Shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to 32 deg F

**Propagation:** Hybrid between Gasteria and Aloe.  
Porous soil with adequate drainage.

**Name:** Glottiphyllum longum  
'Tongue-leaf Plant'

**Height:** under 6 inches

**Width:** 4 – 9 inches forms clumps

**Flowers:** daisy-like yellow blooms in late spring

**Exposure:** Light Shade/Part Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** off-sets

**Name:** Graptoveria 'Fred Ives'

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** 1'-2' long branched inflorescences bearing red-orange

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

Large clumps of rosettes to 8 inches tall by nearly 1 foot wide

**Name:** Graptoveria Fred Ives crested 'Fred Ives'

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** 1'-2' long branched inflorescences bearing red-orange

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

CRESTEDS ARE A VARIANCE PRODUCED BY NATURE GROWS

WIDER TO ACCOMODATE THE SPECIALIZED LEAF GROWTH

ACROSS THE CROWN.

**Name:** Graptoveria 'Opalina'

**Height:** 6 -12 inches

**Width:** 9- 12 inches

**Flowers:** 1'-2' long branched inflorescences bearing pale yellow mid winter

**Exposure:** Cool Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf or stem cuttings

This is a hybrid of graptopetalum and an echeveria. Will branch close to the ground forming mounds.

**Name:** Graptopetalum paraguayense  
Syn: Byrnesia weinbergii, Cotyledon paraguayensis, Echeveria weinbergii, Sedum weinbergii  
'Mother-of-pearl-plant' 'Ghost plant'  
**Height:** 1 foot  
**Width:** 2-3 feet  
**Flowers:** white in spring  
**Exposure:** Full sun  
**Irrigation (H2O Info):** Low Water  
**Propagation:** leaf or stem cuttings

**Name:** Graptoposedum "California sunset"  
**Height:** 6 – 12 inches  
**Width:** 6-9 inches  
**Flowers:** white star shaped in late winter  
**Exposure:** Sun to Partial Shade  
**Irrigation (H2O Info):** Low Water  
**Winter hardiness:** to deg F  
**Propagation:** leaf or stem cuttings

**Name:** Graptoposedum 'Bera Higgins'  
**Height:** 6 – 18 inches  
**Width:** 6- 15 inches  
**Flowers:** white star shaped in late winter  
**Exposure:** Sun to Partial Shade  
**Irrigation (H2O Info):** Low Water  
**Propagation:** leaf or stem cuttings

**Name:** Haworthia reinwardtii  
**Height:** < 6 inches  
**Width:** 6-12 inches  
**Flowers:** white in late spring  
**Exposure:** Sun to Partial Shade  
**Irrigation (H2O Info):** Low Water  
**Propagation:** stem cuttings or divisions  
Good in containers

**Name:** Haworthia cymbiformis v. angustata also call Haworthia Concava... (Window Pane Plant)

**Height:** 3-6 inches

**Width:** 6-9 inches

**Flowers:** white tubular on long stem

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** division

Transparent leaves will turn red when stressed or too much sun.

**Name:** Haworthia resendeana

**Height:** 6-8 inches

**Width:** 6-12 inches

**Flowers:** white in late spring

**Exposure:** Partial Shade

**Drought Tolerant:** Yes

**Irrigation (H2O Info):** Low Water

Good in containers

Short, thick, densely packed, dark green leaves form clumping columnar rosettes. Can turn reddish-brown in full sun. Needs regular water. Shade to light shade.

**Name:** Haworthia fasciata 'Zebra  
Haworthia'

**Height:** 4 inches

**Width:** 6 inches

**Flowers:** white in spring

**Exposure:** Full sun

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf cuttings & dividing pups

A great little plant for the rock garden or for containers.

**Name:** Haworthia truncate, 'Horse teeth'

**Height:** 1-2 inches

**Width:** 2-4 inches

**Flowers:** white, tubular cluster

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Propagation:** leaf cuttings & dividing pups

The truncated tip is translucent allowing light to enter for photosynthesis. In nature it grows burried in the ground, just leave tips visible.

**Name:** Haworthia venosa subsp. tesselata

**Height:** 1-2 inches

**Width:** 2-4 inches

**Flowers:** white, tubular cluster

**Exposure:** Sun to Partial Shade

**Drought Tolerant:** Yes

**Irrigation (H2O Info):** Low Water

**Propagation:** divisions

**Name:** Kalanchoe blossfeldiana (bloss-fel-dee-AY-nuh)

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** Pink, magenta, red, orange, yellow, or white

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Plant is poisonous if ingested. This plant is suitable for growing indoors

**Name:** Kalanchoe crenata 'Never die'

**Height:** 2-3 feet

**Width:** 1-2 feet

**Flowers:** white or pink on tall stem

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe daigremontiana 'Mother of Thousands'

**Height:** 1-4 feet

**Width:** 1-3 feet

**Flowers:** salmon colored bell-shaped chandelier

**Exposure:** Full Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

All parts of the plant are poisonous if ingested. This plant is suitable for growing indoors. Can be invasive. The TINY "PLANTLETS" FORM ON THE LEAF MARGINS, AND EVENTUALLY DROP TO THE GROUND AND ROOT.

**Name:** Kalanchoe "Fang" (Stalactite Plant)

**Height:** 2-3 feet

**Width:** 1-2 feet

**Flowers:** pale yellow, summer

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25- 30 deg F

**Propagation:** by stem cuttings or by a piece of leaf cuttings. ONE OF THE HYBRIDS OF BEHARENSIS, THIS ONE HAS THE SURFACE DIMPLING ON THE UNDERSIDE OF THE LEAVES.

**Name:** Kalanchoe fedtschenkoi

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** coral bell shaped in spring

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** KALANCHOE fedtschenkoi cv VARIEGATA

**Height:** 1-2 feet

**Width:** 1-2 feet

**Flowers:** coral bell shaped in spring

**Exposure:** Cool Sun/Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe hildebrandtii (kal-un-KOH-ee) (hil-de-BRANDT-ee-eye)

'Silver Spoons'

**Height:** 12-18 inches

**Width:** 1-2 feet

**Flowers:** pale green, mid winter

**Exposure:** Sun/Light Shade

**Drought Tolerant:** Yes

**Irrigation (H2O Info):** Low Water

Kalanchoe longiflora 'Coccinea'

**Name:** Kalanchoe marnieriana

**Height:** 12- 18 inches

**Width:** 2 feet clump

**Flowers:** rose-pink to red flowers dangle off stalks

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe luciae 'Flapjack'

(similar to K thrysiflora which is green with yellow flowers)

**Height:** 12 -18 inches

**Width:** 2-3 feet

**Flowers:** tall white chalking stocks

**Exposure:** Full Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe Prolifera also  
Bryophyllum proliferum

**Height:** 2-4 feet

**Width:** 1-3 feet

**Flowers:** box-like calyx, green

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25-30 deg F

**Propagation:** plantlets, leaf, or stem cuttings

**Name:** Kalanchoe pumila (kal-un-KOH-ee) (POO-mil-uh)

'Flower Dust Plant'

**Height:** 6- 12 inches

**Width:** up to 1 foot

**Flowers:** pink, late winter/early spring

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

This low succulent shrub to 8 to 12 inches tall is from the rocky soils in the mountains of Madagascar.

**Name:** Kalanchoe orgyalis 'Copper Spoons'

**Height:** 3- 6 feet most often seen as smaller plant

**Width:** 2-6 feet

**Flowers:** Yellow in winter

**Exposure:** Full Sun

**Irrigation (H2O Info):** No Irrigation required

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe 'Oak Leaf' (Dwarf Velvet Plant)

**Height:** 2-3 feet

**Width:** 3-4 feet

**Flowers:** peach in summer

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** 25-30deg F

**Propagation:** leaf or stem cuttings

**Name:** Kalanchoe tomentosa 'Panda Plant, Chocolate Soldier'

**Height:** up to 1 foot most often seen as smaller plant

**Width:** up to 1 foot

**Flowers:** fuzzy bell-shaped in spring/ summer

**Exposure:** Bright light to full sun

**Irrigation (H2O Info):** Water thoroughly then let dry out.

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

**Name:** Lepismium cruciform

**Height:** 1-3 feet trailing

**Width:** 1 2 feet

**Flowers:** very small light pink

**Exposure:** Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

This trailing cactus, which grows on trees in jungles of Argentina and Brazil. Give it more heat or cold, less water or fewer nutrients, and you'll get that beautiful hue.

**Name:** Ledebouria socialis 'Silver Squill' 'Wood hyacinth'

**Height:** 6-10 inches

**Width:** 2-3 inches

**Flowers:** greenish

**Exposure:** dry shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** bulbous perennial plant with teardrop-shaped bulbs.

**Name:** Peperomia dolabriformis 'Prayer Pepper'

**Height:** 1-2 feet

**Width:** 1 2 feet

**Flowers:** inflorescence up to 16" small green-white flowers

**Exposure:** Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** stem cuttings

darker-green windows along their curved upper surface

**Name:** Plectranthus amboinicus 'Indian mint or Country borage'

**Height:** 1- 3 feet trailing stems

**Width:** spreading

**Flowers:** pale purplish in dense whorls

**Exposure:** semi-shaded

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** stem cuttings

**Name:** Portulacaria afra (Elephant Bush)

**Height:** up to 8 feet

**Width:** 4-6 feet

**Flowers:** Lavender in Summer

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:**

A sprawling, slow growing succulent shrub.

**Name:** Portulacaria afra Variegata (Elephant Bush)

**Height:** up to 8 feet

**Width:** 4-6 feet

**Flowers:** Lavender in Summer

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:**

A sprawling, slow growing succulent shrub.

**Name:** Oscularia deltoids 'Pink Iceplant'

Synonyms: [Lampranthus deltooides]

**Height:** 6inches to 1 foot

**Width:** 2 -3 feet

**Flowers:** small lightly-fragrant yellow-centered lavender-pink flowers, spring

**Exposure:** Full Sun or Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** 15-20°

**Propagation:** division or stem cuttings

**Name:** Othonna capensis 'Little Pickles'

**Height:** 2-4 inches

**Width:** 6-10 inches spreading

**Flowers:** yellow daisy, Spring to Fall

**Exposure:** Full Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** stem cuttings

**Name:** Rhipsalis teres 'mistletoe cacti'

**Height:** 9-12 inches

**Width:** 6-12 inches

**Flowers:** white

**Exposure:** Full Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** division or stem cuttings

Rhipsalis is a genus of epiphytic cacti

**Name:** Sansevieria trifasciata  
'Moonshine'

**Height:** 9-12 inches

**Width:** 6-12 inches

**Flowers:** white

**Exposure:** Full Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:**

This plant is suitable for growing indoors

**Name:** Sansevieria trifasciata 'Snake Plant,  
Mother in Law Tongue'

**Height:** 9-12 inches

**Width:** 6-12 inches

**Flowers:** white

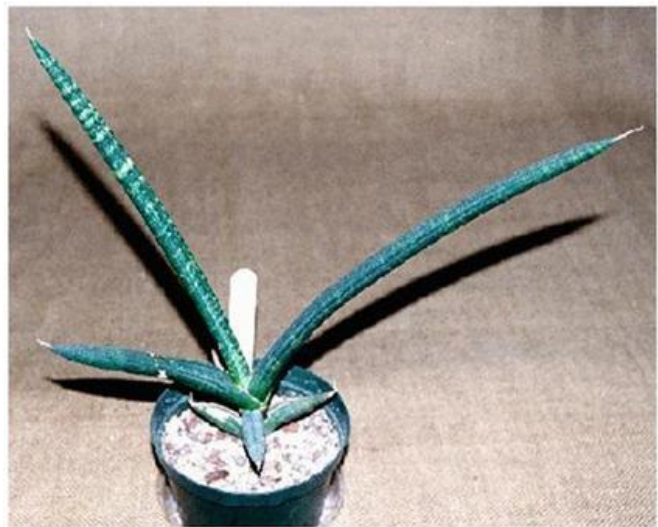

**Exposure:** Full Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** division or stem cuttings

This plant is suitable for growing indoors

**Name:** Sansevieria humbertiana

**Height:** 9-15 inches

**Width:** 6-12 inches

**Flowers:** white

**Exposure:** Full Sun or Part Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** division or stem cuttings

This plant is suitable for growing indoors

**Name:** Sedum acre 'goldmoss stonecrop, wallpepper

**Height:** under 6 inches

**Width:** 12- 15 inches

**Flowers:** yellow

**Exposure:** Full Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** division or stem cuttings

This plant is attractive to bees, butterflies and birds. Can be invasive. Biting stonecrop is a tufted perennial herb that forms mat-like stands.

**Name:** Sedum adolphii Carnicolor (rose)

**Height:** 6-12 inches

**Width:** 3-6 inches

**Flowers:** white

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

This plant is suitable for growing indoors

**Name:** Sedum adolphi 'golden sedum'

& 'orange sedum' **synonym:** Sedum nussbaumerianum (Coppertone Stonecrop)

**Height:** 6-12 inches

**Width:** 3-6 inches

**Flowers:** white

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

This plant is suitable for growing indoors

**Name:** Sedum album, Stonecrop

**Height:** 3- 6 inches

**Width:** 12-18 inches

**Flowers:** white or pink, in summer

**Exposure:** Full Sun

**Drought Tolerant:** Yes

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Plump green rosettes of leaves that color to red in the heat of summer.

**Name:** Sedum 'Angelina'

**Height:** 4-6 inches

**Width:** 9-12 clump

**Flowers:** yellow starry shaped in summer

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25-30 deg F

**Propagation:** leaf and stem cuttings

A terrific low evergreen groundcover for sunny areas with poor dry soil.

**Name:** Sedum brevifolium

**Height:** 2-3 inches

**Width:** 12 inches, Slowly spreading,

**Flowers:** pinkish or white star-shaped, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf or stem cuttings

Plants may sunburn if not given some shade in the hottest climate zones. Performs and looks best in rock gardens or as a small scale ground cover.

Sedum furfuraceum  
(c) Debra Lee Baldwin

**Name:** Sedum furfuraceum (Bonsai Sedum)

**Height:** 4-12 inches

**Width:** 4-12 inches, Slowly spreading,

**Flowers:** pinkish white spring

**Exposure:** Sun or Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25-30 deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum album 'Hillebrandtii'

**Height:** 2-3 inches

**Width:** 12 inches, Slowly spreading,

**Flowers:** pinkish or white star-shaped, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:**

Foliage color is brownish-red and green. This first photo was taken toward the end of winter. Clusters of light pink flowers. Low and spreading. Evergreen. From the Rhine Valley

**Name:** Sedum makinoi 'Ogon'  
(Golden Stonecrop)

**Height:** 2 inches

**Width:** 8-12 clump

**Flowers:** pale yellow, summer

**Exposure:** part sun to Shade

**Irrigation (H2O Info):** low to moderate

**Hardiness:** 10 F

**Propagation:** leaf and stem cuttings

Soil well drained. Bright gold to yellow foliage.

Good in miniature gardens.

**Name:** Sedum morganianum 'Mexico'

**Height:** 2-3 inches

**Width:** 12 inches

**Flowers:** pinkish or white, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum morganianum 'Burrito'

**Height:** 2-3 inches

**Width:** 12 inches

**Flowers:** pinkish or white, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum Fosterianum 'Oracle'

**Height:** 4-9 inches

**Width:** 9-12 inches

**Flowers:** bright sulfur yellow

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** divisions or stem cuttings

Sedum fosterianum is a mat-forming, evergreen stonecrop that it native to western Europe.

**Name:** Sedum kinnachii or makinoi  
“Limelight”

**Height:** 4-9 inches

**Width:** 9-12 clump

**Flowers:** bright yellow

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

Excellent groundcover for hot, dry sites with poor soil.

**Name:** Sedum praealtum ‘Tree Sedum’

**Height:** 6- 36 inches

**Width:** 6- 18 inches

**Flowers:** yellow long betals

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

Very bushy plant and very shy bloomer

**Name:** Sedum pachyclados Syn:  
Rhodiola pachyclados  
(Afghani stonecrop, silver gem  
stonecrop)

**Height:** 4 inches

**Width:** up to 18 inches

**Flowers:** Bright Yellow, mid Summer

**Exposure:** Sun to light shade

**Irrigation (H2O Info):** average - moist

**Winter hardiness:** to deg F

**Propagation:** divisions or stem cuttings

Creeping, matt forming

**Name:** Sedum pachyphyllum”

**Height:** 10-20 inches

**Width:** 9-12 inches

**Flowers:** yellow

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum reflexum 'Blue Spruce'

**Synonym:** Sedum rupestre 'Blue Spruce',  
Sedum pinifolium, Sedum pruniatum

**Height:** under 6 inches

**Width:** 18 - 24 inches

**Flowers:** Bright Yellow, mid Summer

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

This plant is resistant to deer.

**Name:** Sedum rubrotinctum, 'Jelly Beans', 'Pork & Beans'

**Height:** 6-12 inches

**Width:** 9-12 inches

**Flowers:** Pale Yellow

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Danger:** Parts of plant are poisonous if ingested

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum japonicum (Tokyo Sun)

This succulent from Europe spreads freely, making it a fluffy groundcover or filler between other plants.

**Height:** inches

**Width:** inches

**Flowers:** Pale Yellow

**Exposure:**

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Sedum pellucida 'Little Missy'

**Height:** 4 inches

**Width:** 12-15 inches

**Flowers:** Pink and white, July- August

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Well drained low water requirements, Heat and Drought tolerant.

**Winter hardiness:** to 20 deg F

**Propagation:** divisions or stem cuttings

**Name:** Sedum spurium 'Dragon's Blood'

**Height:** under 6 inches

**Width:** 12-15 inches

**Flowers:** Pink

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Water regularly

**Winter hardiness:** to deg F

**Propagation:** divisions or stem cuttings

**Name:** Sempervivum 'Desert Bloom' (Hens and Chicks)

**Height:** 3-6 inches

**Width:** 8-12 inches

**Flowers:** Red, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** divisions

**Name:** Sempervivum calcoreum

**Height:** 3-5 inches

**Width:** 3-12 clump

**Flowers:**

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** divisions

**Name:** Senecio anteuphorbium 'Swizzle Sticks'

**Height:** 1 - 3 feet

**Width:** 1- 3 feet clump

**Flowers:** fragrant yellow, fall/winter

**Exposure:** bright light with ample airflow

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25-30 deg F

**Propagation:** stem cuttings

**Name:** Senecio articulatus 'Candle Plant or Hot Dog Cactus'

**Height:** 12-24 inches

**Width:** 1 foot

**Flowers:** white, tiny cup shaped in clusters on top of long stems

**Exposure:** partial shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Senecio crassissimus 'Vertical Leaf Senecio'

**Height:** 2-3 feet

**Width:** 1-2 feet

**Flowers:** in winter the inflorescence rises from the stem tips 1 to 2 feet bearing an open branched head of bright yellow daisy flowers

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Name:** Senecio haworthii, 'Woolly Senecio'

**Height:** > 1 feet **Width:** 2-4 feet

**Flowers:** bright yellow, short terminal inflorescence

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 22 deg F

**Propagation:** leaf and stem cuttings

Don't wet foliage and needs well drained soil. Great in terra cotta pot allows soil to go dry.

**Name:** Senecio jacobsenii 'Trailing Jade'

**Height:** 12-24 inches **Width:** 1 foot

**Flowers:**

**Exposure:** Full Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 deg F

**Propagation:** leaf and stem cuttings

They grow with trailing patterns

**Name:** Senecio vitalis, 'Blue Chalk Fingers'

**Height:** 1-2 feet

**Width:** 2-4 feet

**Flowers:** cream small

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 deg F

**Propagation:** leaf and stem cuttings

**Name:** Senecio kleiniiformis 'Spear Head'

**Height:** 6-12 inches

**Width:** 12-15 inches

**Flowers:** Pale Yellow

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to deg F

**Propagation:** leaf and stem cuttings

**Name:** Senecio mandraliscae 'Blue Finger'

**Height:** 1-2 feet

**Width:** 2-3 feet

**Flowers:** white

**Exposure:** Full Sun to Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 15 deg F

**Propagation:** leaf and stem cuttings, great ground cover

**Name:** Senecio seroebis (Blue Chalksticks)

**Height:** 1 foot

**Width:** 2-3 feet

**Flowers:** White, summer

**Exposure:** Full Sun

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 20-25 deg F

**Propagation:** leaf and stem cuttings, great groundcover

**Name:** Senecio rowleyanus 'String of Pearls'

**Height:** under 6 inches

**Width:**

**Flowers:** White

**Exposure:** Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 deg F

**Propagation:** leaf and stem cuttings

**Name:** Senecio radicans trailing plant  
"String of Bananas"

Senecio (sen-ek-ee-o ) radicans (RAD-ee-kans)

**Height:** under 6 inches

**Width:** 9-12 inches

**Flowers:** White

**Exposure:** Light Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** to 25 deg F

**Propagation:** leaf and stem cuttings

All parts of plant are poisonous if ingested. This plant is suitable for growing indoors and in containers. Requires consistently moist soil; do not let dry out between watering.

**Name:** Senecio stapeliaeformis var. minor  
'Pickle Plant'

**Height:** 6 -12 inches

**Width:** 3 -6 inches

**Flowers:** red, in late spring/early summer

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter Hardiness:** 25-30 deg F

**Propagation:** divide root ball, stem cuttings, or seed

**Name:** Sedeveria 'Jet Beads'

**Height:** under 1 foot

**Width:** under 1 foot

**Flowers:** yellow, summer

**Exposure:** Sun to Partial Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** 25-30deg F

**Propagation:** leaf and stem cuttings

**Name:** STAPELIA GIGANTEA "STARFISH"  
FLOWER PLANT (carrion flowers)

**Height:** 6 – 9 inches

**Width:** 6-18 inch clump

**Flowers:** Large star shaped yellow/ red lines

**Exposure:** Full Sun to Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** USDA zones 9-11

**Propagation:** division or stem cuttings

**Name:** Stapelia grandiflora

**Height:** 6-9 inches

**Width:** 6-18 inch clump

**Flowers:** Large star shaped red

**Exposure:** Full Sun to Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** USDA zones 9-11

**Propagation:** divisions & stem cuttings

**Name:** Stapelia pulchellus

**Height:** 6-9 inches

**Width:** 6-18 inch clump

**Flowers:** 1" reddish star-shaped blooms

**Exposure:** Full Sun to Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** USDA zones 9-11

**Propagation:** divisions or stem cuttings

**Name:** Stapelia scitula (Starfish Flower miniature)

**Height:** 1-3 inches

**Width:** 2-4 inch clump

**Flowers:** 1" reddish star-shaped blooms

**Exposure:** Full Sun to Shade

**Irrigation (H2O Info):** Low Water

**Winter hardiness:** USDA zones 9-11

**Propagation:** divisions & stem cuttings

Free-blooming and at times prolific, perfect plant for a sunny dry windowsill, Forgetful watering is a plus, as it needs some dryness between waterings to flourish.
